Art.: 9000208

Safety data sheet according to Regulation (EC) No 1907/2006, Annex II

SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1 Product identifier

Multi-Primer 5 L Art.: 9000208 1.2 Relevant identified uses of the substance or mixture and uses advised against Relevant identified uses of the substance or mixture: Primer/adhesion promoter Uses advised against: No information available at present.

1.3 Details of the supplier of the safety data sheet

BTI Befestigungstechnik GmbH & Co. KG Salzstr. 51 74653 Ingelfingen Tel.: +49 7940 141 141 Fax: +49 7940 141 9141 Email: info@bti.de Homepage: www.bti.de

Qualified person's e-mail address: info@chemical-check.de, k.schnurbusch@chemical-check.de Please DO NOT use for requesting Safety Data Sheets.

1.4 Emergency telephone number

Emergency information services / official advisory body:

Telephone number of the company in case of emergencies: +49 (0) 700 / 24 112 112 (BRC)

SECTION 2: Hazards identification

| 2.1 Classification of the substance or mixture Classification according to Regulation (EC) 1272/2008 (CLP) | | | | | | | |
|---|---|--|--|--|--|--|--|
| Hazard class | Hazard class Hazard category Hazard statement | | | | | | |
| Flam. Liq. | 2 | H225-Highly flammable liquid and vapour. | | | | | |
| Skin Irrit. | 2 | H315-Causes skin irritation. | | | | | |
| STOT SE | 3 | H336-May cause drowsiness or dizziness. | | | | | |
| Aquatic Acute | 1 | H400-Very toxic to aquatic life. | | | | | |
| Aquatic Chronic | 1 | H410-Very toxic to aquatic life with long lasting effects. | | | | | |

2.2 Label elements Labeling according to Regulation (EC) 1272/2008 (CLP)

Page 2 of 23 Safety data sheet according to Regulation (EC) No 1907/2006, Annex II Revision date / version: 24.06.2021 / 0016 Replacing version dated / version: 09.10.2019 / 0015 Valid from: 24.06.2021 PDF print date: 24.06.2021 Multi-Primer 5 L Art.: 9000208

Danger

H225-Highly flammable liquid and vapour. H315-Causes skin irritation. H336-May cause drowsiness or dizziness. H410-Very toxic to aquatic life with long lasting effects.

P101-If medical advice is needed, have product container or label at hand. P102-Keep out of reach of children. P210-Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. P261-Avoid breathing vapours or spray. P273-Avoid release to the environment. P280-Wear protective gloves. P312-Call a POISON CENTRE / doctor if you feel unwell. P405-Store locked up.

P501-Dispose of contents / container to an approved waste disposal facility.

EUH208-Contains Zinc bis(dibutyldithiocarbamate). May produce an allergic reaction.

This product is not to be used under conditions of poor ventilation. This product is not to be used for carpet laying. Ethyl acetate Naphtha (petroleum), hydrotreated light Cyclohexane

2.3 Other hazards

The mixture does not contain any vPvB substance (vPvB = very persistent, very bioaccumulative) or is not included under XIII of the regulation (EC) 1907/2006 (< 0,1 %).

The mixture does not contain any PBT substance (PBT = persistent, bioaccumulative, toxic) or is not included under XIII of the regulation (EC) 1907/2006 (< 0.1 %).

For the text of the H-phrases and classification codes (GHS/CLP), see Section 16.

The substances named in this section are given with their actual, appropriate classification!

For substances that are listed in appendix VI, table 3.1 of the regulation (EC) no. 1272/2008 (CLP regulation) this means that all notes that may be given here for the named classification have been taken into account. If, for example, the note P is applied for a hydrocarbon then this has already been taken into account for the classification named here.

Quote: "Note P - The classification as a carcinogen or mutagen need not apply if it can be shown that the substance contains less than 0,1 % w/w benzene (EINECS No 200-753-7)."

Art.: 9000208

Article 4 of the regulation (EC) no. 1272/2008 (CLP regulation) was also observed and taken into account for the classification named here.

SECTION 4: First aid measures

4.1 Description of first aid measures

First-aiders should ensure they are protected!

Never pour anything into the mouth of an unconscious person!

Inhalation

Remove person from danger area.

Supply person with fresh air and consult doctor according to symptoms.

If the person is unconscious, place in a stable side position and consult a doctor.

Respiratory arrest - Artificial respiration apparatus necessary.

Skin contact

Remove polluted, soaked clothing immediately, wash thoroughly with plenty of water and soap, in case of irritation of the skin (flare), consult a doctor.

Eye contact

Remove contact lenses.

Wash thoroughly for several minutes using copious water. Seek medical help if necessary.

Ingestion

Rinse the mouth thoroughly with water.

Do not induce vomiting - give copious water to drink. Consult doctor immediately.

4.2 Most important symptoms and effects, both acute and delayed

If applicable delayed symptoms and effects can be found in section 11 and the absorption route in section 4.1.

In certain cases, the symptoms of poisoning may only appear after an extended period / after several hours.

4.3 Indication of any immediate medical attention and special treatment needed

Symptomatic treatment.

SECTION 5: Firefighting measures

5.1 Extinguishing media Suitable extinguishing media CO₂ Water jet spray Extinction powder Large fire: Water jet spray Alcohol resistant foam Unsuitable extinguishing media High volume water jet 5.2 Special hazards arising from the substance or mixture In case of fire the following can develop: Oxides of carbon Oxides of nitrogen Toxic gases Explosive vapour/air or gas/air mixtures. 5.3 Advice for firefighters In case of fire and/or explosion do not breathe fumes. Protective respirator with independent air supply.

Page 5 of 23 Safety data sheet according to Regulation (EC) No 1907/2006, Annex II Revision date / version: 24.06.2021 / 0016 Replacing version dated / version: 09.10.2019 / 0015 Valid from: 24.06.2021 PDF print date: 24.06.2021 Multi-Primer 5 L Art.: 9000208

According to size of fire Full protection, if necessary. Cool container at risk with water. Dispose of contaminated extinction water according to official regulations.

SECTION 6: Accidental release measures

6.1 Personal precautions, protective equipment and emergency procedures Keep unprotected persons away. Remove possible causes of ignition - do not smoke. Ensure sufficient supply of air. Avoid inhalation, and contact with eyes or skin. **6.2 Environmental precautions** If leakage occurs, dam up. Resolve leaks if this possible without risk. Prevent from entering drainage system. Prevent surface and ground-water infiltration, as well as ground penetration. If accidental entry into drainage system occurs, inform responsible authorities. 6.3 Methods and material for containment and cleaning up Soak up with absorbent material (e.g. universal binding agent, sand, diatomaceous earth, sawdust) and dispose of according to Section 13. 6.4 Reference to other sections For personal protective equipment see Section 8 and for disposal instructions see Section 13.

SECTION 7: Handling and storage

In addition to information given in this section, relevant information can also be found in section 8 and 6.1. 7.1 Precautions for safe handling 7.1.1 General recommendations Ensure good ventilation. Avoid aerosol formation. Avoid contact with eyes or skin. Keep away from sources of ignition - Do not smoke. Take measures against electrostatic charging, if appropriate. Eating, drinking, smoking, as well as food-storage, is prohibited in work-room. Observe directions on label and instructions for use. Use working methods according to operating instructions. 7.1.2 Notes on general hygiene measures at the workplace General hygiene measures for the handling of chemicals are applicable. Wash hands before breaks and at end of work. Keep away from food, drink and animal feedingstuffs. Remove contaminated clothing and protective equipment before entering areas in which food is consumed. 7.2 Conditions for safe storage, including any incompatibilities Keep out of access to unauthorised individuals. Observe special storage conditions. Store product closed and only in original packing. Not to be stored in gangways or stair wells. Observe special storage conditions. Do not store with flammable or self-igniting materials.

Page 6 of 23 Safety data sheet according to Regulation (EC) No 1907/2006, Annex II Revision date / version: 24.06.2021 / 0016 Replacing version dated / version: 09.10.2019 / 0015 Valid from: 24.06.2021 PDF print date: 24.06.2021 Multi-Primer 5 L Art.: 9000208

Protect from direct sunlight and warming.
Store in a well ventilated place.
Store cool.
Store in a dry place. **7.3 Specific end use(s)**No information available at present.

SECTION 8: Exposure controls/personal protection

8.1 Control parameters

Workplace exposure limit (WEL) of the total hydrocarbon solvent content of the mixture (RCP method according to EH40): 1200 mg/m3

WEL-TWA = Workplace Exposure Limit - Long-term exposure limit (8-hour TWA (= time weighted average) reference period) EH40. AGW = "Arbeitsplatzgrenzwert" (workplace limit value, Germany).
(8) = Inhalable fraction (Directive 2017/164/EU, Directive 2004/37/CE). (9) = Respirable fraction (Directive 2017/164/EU, Directive 2004/37/CE). (12) = Inhalable fraction. Respirable fraction in those Member States that implement, on the date of the entry into force of this Directive, a biomonitoring system with a biological limit value not exceeding 0,002 mg Cd/g creatinine in urine (Directive 2004/37/CE). | WEL-STEL = Workplace Exposure Limit - Short-term exposure limit (15-minute reference period).

(8) = Inhalable fraction (2017/164/EU, 2017/2398/EU). (9) = Respirable fraction (2017/164/EU, 2017/2398/EU). (10) = Short-term exposure limit value in relation to a reference period of 1 minute (2017/164/EU). | BMGV = Biological monitoring guidance value EH40. BGW = "Biologischer Grenzwert" (biological limit value, Germany) | Other information: Sen = Capable of causing occupational asthma. Sk = Can be absorbed through skin. Carc = Capable of causing cancer and/or heritable genetic damage.

** = The exposure limit for this substance is repealed through the TRGS 900 (Germany) of January 2006 with the goal of revision.

(13) = The substance can cause sensitisation of the skin and of the respiratory tract (Directive 2004/37/CE), (14) = The substance can cause sensitisation of the skin (Directive 2004/37/CE).

8.2 Exposure controls8.2.1 Appropriate engineering controls

Ensure good ventilation. This can be achieved by local suction or general air extraction.

Page 10 of 23 Safety data sheet according to Regulation (EC) No 1907/2006, Annex II Revision date / version: 24.06.2021 / 0016 Replacing version dated / version: 09.10.2019 / 0015 Valid from: 24.06.2021 PDF print date: 24.06.2021 Multi-Primer 5 L Art.: 9000208

If this is insufficient to maintain the concentration under the WEL or AGW values, suitable breathing protection should be worn.

Applies only if maximum permissible exposure values are listed here.

Suitable assessment methods for reviewing the effectiveness of protection measures adopted include metrological and non-metrological investigative techniques.

These are specified by e.g. EN 14042.

EN 14042 "Workplace atmospheres. Guide for the application and use of procedures for the assessment of exposure to chemical and biological agents".

8.2.2 Individual protection measures, such as personal protective equipment

General hygiene measures for the handling of chemicals are applicable.

Wash hands before breaks and at end of work.

Keep away from food, drink and animal feedingstuffs.

Remove contaminated clothing and protective equipment before entering areas in which food is consumed.

Eye/face protection: Tight fitting protective goggles with side protection (EN 166).

Skin protection - Hand protection: Chemical resistant protective gloves (EN 374). Recommended Protective nitrile gloves (EN 374). Minimum layer thickness in mm: >= 0,4Permeation time (penetration time) in minutes: >= 480The breakthrough times determined in accordance with EN 16523-1 were not obtained under practical conditions. The recommended maximum wearing time is 50% of breakthrough time. Protective hand cream recommended.

Skin protection - Other: Protective working garments (e.g. safety shoes EN ISO 20345, long-sleeved protective working garments).

Respiratory protection: If OES or MEL is exceeded. Filter AX P3 (EN 14387), code colour brown, white At high concentrations: Protective respirator with independent air supply. Observe wearing time limitations for respiratory protection equipment.

Thermal hazards: Not applicable

Additional information on hand protection - No tests have been performed. In the case of mixtures, the selection has been made according to the knowledge available and the information about the contents. Selection of materials derived from glove manufacturer's indications.

Final selection of glove material must be made taking the breakthrough times, permeation rates and degradation into account.

Page 11 of 23
Safety data sheet according to Regulation (EC) No 1907/2006, Annex II Revision date / version: 24.06.2021 / 0016

Art.: 9000208

Selection of a suitable glove depends not only on the material but also on other quality characteristics and varies from manufacturer to manufacturer.

In the case of mixtures, the resistance of glove materials cannot be predicted and must therefore be tested before use.

The exact breakthrough time of the glove material can be requested from the protective glove manufacturer and must be observed.

8.2.3 Environmental exposure controls

No information available at present.

SECTION 9: Physical and chemical properties

9.1 Information on basic physical and chemical properties

| 9.1 Information on basic physical and chemical prop | |
|---|--|
| Physical state: | Liquid |
| Colour: | Black |
| Odour: | Characteristic |
| Odour threshold: | Not determined |
| pH-value: | n.a. |
| Melting point/freezing point: | Not determined |
| Initial boiling point and boiling range: | 60 °C |
| Flash point: | -20 °C |
| Evaporation rate: | Not determined |
| Flammability (solid, gas): | Not determined |
| Lower explosive limit: | 1,3 Vol-% |
| Upper explosive limit: | 8,3 Vol-% |
| Vapour pressure: | 175 hPa (20°C) |
| Vapour density (air $=$ 1): | Not determined |
| Density: | 0,84 g/cm3 (20°C) |
| Bulk density: | Not determined |
| Solubility(ies): | Not determined |
| Water solubility: | Not miscible |
| Partition coefficient (n-octanol/water): | Not determined |
| Auto-ignition temperature: | No |
| Decomposition temperature: | Not determined |
| Viscosity: | 900 mPas (20°C) |
| Explosive properties: | Product is not explosive. When using: development of |
| | explosive vapour/air mixture possible. |
| Oxidising properties: | No |
| 9.2 Other information | |
| Miscibility: | Hydrocarbons |
| Fat solubility / solvent: | Not determined |
| Conductivity: | Not determined |
| Surface tension: | Not determined |
| Solvents content: | 63,37 % |
| | |

SECTION 10: Stability and reactivity

10.1 Reactivity The product has not been tested.

Page 12 of 23 Safety data sheet according to Regulation (EC) No 1907/2006, Annex II Revision date / version: 24.06.2021 / 0016 Replacing version dated / version: 09.10.2019 / 0015 Valid from: 24.06.2021 PDF print date: 24.06.2021 Multi-Primer 5 L Art.: 9000208

10.2 Chemical stability

Stable with proper storage and handling. 10.3 Possibility of hazardous reactions No dangerous reactions are known. **10.4 Conditions to avoid** See also section 7. Heating, open flame, ignition sources Electrostatic charge **10.5 Incompatible materials** See also section 7. Avoid contact with strong oxidizing agents. 10.6 Hazardous decomposition products See also section 5.2 No decomposition when used as directed.

SECTION 11: Toxicological information

11.1 Information on toxicological effects

Possibly more information on health effects, see Section 2.1 (classification).

SECTION 13: Disposal considerations

13.1 Waste treatment methods

For the substance / mixture / residual amounts

EC disposal code no.:

The waste codes are recommendations based on the scheduled use of this product. Owing to the user's specific conditions for use and disposal, other waste codes may be allocated under certain circumstances. (2014/955/EU) 08 04 09 waste adhesives and sealants containing organic solvents or other hazardous substances Recommendation: Sewage disposal shall be discouraged. Pay attention to local and national official regulations. E.g. suitable incineration plant. **For contaminated packing material** Pay attention to local and national official regulations. 15 01 01 paper and cardboard packaging 15 01 04 metallic packaging Empty container completely. Uncontaminated packaging can be recycled.

SECTION 14: Transport information

| General statements | |
|-------------------------------------|------|
| 14.1. UN number: | 1133 |
| Transport by road/by rail (ADR/RID) | |
| 14.2. UN proper shipping name: | |
| UN 1133 ADHESIVES | |
| 14.3. Transport hazard class(es): | 3 |
| 14.4. Packing group: | II |

Dispose of packaging that cannot be cleaned in the same manner as the substance.

| 14.3. Transport hazard class(es): | 3 |
| 14.4. Packing group: | II |
| EmS: | F-E, S-D |
| Marine Pollutant: | Yes |
| 14.5. Environmental hazards: | environmentally |
| | hazardous |
| Transport by air (IATA) | |
| 14.2. UN proper shipping name: | |
| Adhesives | |
| 14.3. Transport hazard class(es): | 3 |
| 14.4. Packing group: | II |
| 14.5. Environmental hazards: | Not applicable |
| 14.6. Special precautions for user | |
| Persons employed in transporting dangerous goods must | t be trained. |
| All persons involved in transporting must observe safety | regulations. |
| Precautions must be taken to prevent damage. | |
| 14.7. Transport in bulk according to Annex II of MA | RPOL and the IBC Code |
| Freighted as packaged goods rather than in bulk, therefore | re not applicable. |
| Minimum amount regulations have not been taken into a | account. |
| Danger code and packing code on request. | |
| | |

Comply with special provisions.

SECTION 15: Regulatory information

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

Observe restrictions: Comply with national regulations/laws governing the protection of young people at work (national implementation of the Directive 94/33/EC)! Regulation (EC) No 1907/2006, Annex XVII Cyclohexane Comply with trade association/occupational health regulations.

Directive 2012/18/EU ("Seveso III"), Annex I, Part 1 - The following categories apply to this product (others may also need to be considered according to storage, handling etc.):

| Hazard categories | Notes to Annex I | Qualifying quantity | Qualifying quantity |
|-------------------|------------------|---------------------------|---------------------------|
| | | (tonnes) of dangerous | (tonnes) of dangerous |
| | | substances as referred to | substances as referred to |
| | | in Article 3(10) for the | in Article 3(10) for the |
| | | application of - Lower- | application of - Upper- |
| | | tier requirements | tier requirements |
| P5c | | 5000 | 50000 |

100

The Notes to Annex 1 of Directive 2012/18/EU, in particular those named in the tables here and notes 1-6, must be taken into account when assigning categories and qualifying quantities.

Directive 2010/75/EU (VOC): **REGULATION (EC) No 648/2004** n.a.

63,37 %

Observe incident regulations.

15.2 Chemical safety assessment

A chemical safety assessment is not provided for mixtures.

SECTION 16: Other information

Revised sections:

2, 3, 4, 7, 8, 9, 11, 12, 14, 15 Employee training in handling dangerous goods is required. These details refer to the product as it is delivered. Employee instruction/training in handling hazardous materials is required.

Classification and processes used to derive the classification of the mixture in accordance with the ordinance (EG) 1272/2008 (CLP):

| Classification in accordance with regulation (EC) | Evaluation method used |
|---|--|
| No. 1272/2008 (CLP) | |
| Flam. Liq. 2, H225 | Classification based on test data. |
| Skin Irrit. 2, H315 | Classification according to calculation procedure. |
| STOT SE 3, H336 | Classification according to calculation procedure. |
| Aquatic Acute 1, H400 | Classification according to calculation procedure. |
| Aquatic Chronic 1, H410 | Classification according to calculation procedure. |

The following phrases represent the posted Hazard Class and Risk Category Code (GHS/CLP) of the product and the constituents (specified in Section 2 and 3).

H225 Highly flammable liquid and vapour.

H304 May be fatal if swallowed and enters airways.

H315 Causes skin irritation.

H317 May cause an allergic skin reaction.

H319 Causes serious eye irritation.

H335 May cause respiratory irritation.

H336 May cause drowsiness or dizziness.

H400 Very toxic to aquatic life.

H410 Very toxic to aquatic life with long lasting effects.

H411 Toxic to aquatic life with long lasting effects.

Flam. Liq. — Flammable liquid

Skin Irrit. — Skin irritation

STOT SE - Specific target organ toxicity - single exposure - narcotic effects

Aquatic Acute - Hazardous to the aquatic environment - acute

Aquatic Chronic - Hazardous to the aquatic environment - chronic

Asp. Tox. - Aspiration hazard

Page 22 of 23 Safety data sheet according to Regulation (EC) No 1907/2006, Annex II Revision date / version: 24.06.2021 / 0016 Replacing version dated / version: 09.10.2019 / 0015 Valid from: 24.06.2021 PDF print date: 24.06.2021 Multi-Primer 5 L Art.: 9000208

Eye Irrit. — Eye irritation STOT SE — Specific target organ toxicity - single exposure - respiratory tract irritation Skin Sens. — Skin sensitization
