## Safety data sheet according to Regulation (EC) No 1907/2006, Annex II

## SECTION 1: Identification of the substance/mixture and of the company/undertaking

## **1.1 Product identifier**

## Glanzwachs

 1.2 Relevant identified uses of the substance or mixture and uses advised against Relevant identified uses of the substance or mixture:
 Waterproofing agent
 Uses advised against:
 No information available at present.

#### 1.3 Details of the supplier of the safety data sheet

LIQUI MOLY GmbH Jerg-Wieland-Str. 4 89081 Ulm-Lehr Tel.: (+49) 0731-1420-0 Fax: (+49) 0731-1420-88

Qualified person's e-mail address: info@chemical-check.de, k.schnurbusch@chemical-check.de Please DO NOT use for requesting Safety Data Sheets.

#### 1.4 Emergency telephone number Emergency information services / official advisory body:

**Telephone number of the company in case of emergencies:** +49 (0) 700 / 24 112 112 (LMR) +1 872 5888271 (LMR)

## **SECTION 2: Hazards identification**

#### 2.1 Classification of the substance or mixture

Classification according to Regulation (EC) 1272/2008 (CLP)

| Hazard class    | Hazard category |
|-----------------|-----------------|
| Skin Irrit.     | 2               |
| Eye Dam.        | 1               |
| Aquatic Chronic | 3               |

Hazard statement H315-Causes skin irritation. H318-Causes serious eye damage. H412-Harmful to aquatic life with long lasting effects.

## 2.2 Label elements

Labeling according to Regulation (EC) 1272/2008 (CLP)

Page 2 of 16

œ

Safety data sheet according to Regulation (EC) No 1907/2006, Annex II Revision date / version: 22.03.2023 / 0003 Replacing version dated / version: 01.12.2022 / 0002 Valid from: 22.03.2023 PDF print date: 22.03.2023 Glanzwachs

#### Danger

H315-Causes skin irritation. H318-Causes serious eye damage. H412-Harmful to aquatic life with long lasting effects.

P101-If medical advice is needed, have product container or label at hand. P102-Keep out of reach of children. P273-Avoid release to the environment. P280-Wear protective gloves / protective clothing / eye protection. P305+P351+P338-IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. P310-Immediately call a POISON CENTER / doctor. P501-Dispose of contents / container to an approved waste disposal facility.

1-Propanaminium, 2-hydroxy-N-(2-hydroxypropyl)-N,N-dimethyl-, diesters with vegetable-oil fatty acids, C18-unsatd., Me sulfates (salts)

#### 2.3 Other hazards

The mixture does not contain any vPvB substance (vPvB = very persistent, very bioaccumulative) or is not included under XIII of the regulation (EC) 1907/2006 (< 0,1 %).

The mixture does not contain any PBT substance (PBT = persistent, bioaccumulative, toxic) or is not included under XIII of the regulation (EC) 1907/2006 (< 0.1 %).

The mixture does not contain any substance with endocrine disrupting properties (< 0,1 %).

## **SECTION 3: Composition/information on ingredients**

#### 3.1 Substances

#### n.a. 3.2 Mixtures

| 2-Butoxyethanol  | Substance for which an EU exposure limit value applies. |  |  |

|  | Aquatic Chronic 1, H410 (M=1) |

Impurities, test data and additional information may have been taken into account in classifying and labelling the product.

For the text of the H-phrases and classification codes (GHS/CLP), see Section 16.

The substances named in this section are given with their actual, appropriate classification!

For substances that are listed in appendix VI, table 3.1 of the regulation (EC) no. 1272/2008 (CLP regulation) this means that all notes that may be given here for the named classification have been taken into account.

## **SECTION 4: First aid measures**

#### 4.1 Description of first aid measures

First-aiders should ensure they are protected!

Never pour anything into the mouth of an unconscious person!

#### Inhalation

ആ

Supply person with fresh air and consult doctor according to symptoms.

#### Skin contact

Remove polluted, soaked clothing immediately, wash thoroughly with plenty of water and soap, in case of irritation of the skin (flare), consult a doctor.

#### Eye contact

Remove contact lenses.

Wash thoroughly for several minutes using copious water - call doctor immediately, have Data Sheet available.

Protect uninjured eye.

Follow-up examination by an ophthalmologist.

#### Ingestion

Rinse the mouth thoroughly with water.

Do not induce vomiting - give copious water to drink. Consult doctor immediately.

#### 4.2 Most important symptoms and effects, both acute and delayed

If applicable delayed symptoms and effects can be found in section 11 and the absorption route in section 4.1. In certain cases, the symptoms of poisoning may only appear after an extended period / after several hours. eyes, reddened watering eyes irritation of the eyes reddening of the skin Dermatitis (skin inflammation)

## 4.3 Indication of any immediate medical attention and special treatment needed

Page 4 of 16 Safety data sheet according to Regulation (EC) No 1907/2006, Annex II Revision date / version: 22.03.2023 / 0003 Replacing version dated / version: 01.12.2022 / 0002 Valid from: 22.03.2023 PDF print date: 22.03.2023 Glanzwachs

Symptomatic treatment.

ആ

## **SECTION 5: Firefighting measures**

### 5.1 Extinguishing media Suitable extinguishing media

Adapt to the nature and extent of fire.

Water jet spray / alcohol resistant foam / CO2 / dry extinguisher.

#### Unsuitable extinguishing media

High volume water jet

#### 5.2 Special hazards arising from the substance or mixture

In case of fire the following can develop: Oxides of carbon Oxides of nitrogen Oxides of sulphur Corrosive vapours Toxic gases Fume **5.3 Advice for firefighters** For personal protective equipment see Section 8. In case of fire and/or explosion do not breathe fumes. Protective respirator with independent air supply. According to size of fire Full protection, if necessary.

Dispose of contaminated extinction water according to official regulations.

## **SECTION 6: Accidental release measures**

## 6.1 Personal precautions, protective equipment and emergency procedures

6.1.1 For non-emergency personnel

In case of spillage or accidental release, wear personal protective equipment as specified in section 8 to prevent contamination. Ensure sufficient ventilation, remove sources of ignition.

Avoid dust formation with solid or powder products.

Leave the danger zone if possible, use existing emergency plans if necessary.

Avoid contact with eyes or skin.

If applicable, caution - risk of slipping.

#### 6.1.2 For emergency responders

See section 8 for suitable protective equipment and material specifications.

#### **6.2 Environmental precautions**

If leakage occurs, dam up.

Resolve leaks if this possible without risk.

Prevent surface and ground-water infiltration, as well as ground penetration. Prevent from entering drainage system.

If accidental entry into drainage system occurs, inform responsible authorities.

6.3 Methods and material for containment and cleaning up

Soak up with absorbent material (e.g. universal binding agent, sand, diatomaceous earth, sawdust) and dispose of according to Section 13.

## 6.4 Reference to other sections

For personal protective equipment see Section 8 and for disposal instructions see Section 13.

## **SECTION 7: Handling and storage**

In addition to information given in this section, relevant information can also be found in section 8 and 6.1.

## 7.1 Precautions for safe handling

## 7.1.1 General recommendations

Ensure good ventilation.

Avoid contact with eyes or skin. Eating, drinking, smoking, as well as food-storage, is prohibited in work-room. Observe directions on label and instructions for use.

Page 5 of 16 Safety data sheet according to Regulation (EC) No 1907/2006, Annex II Revision date / version: 22.03.2023 / 0003 Replacing version dated / version: 01.12.2022 / 0002 Valid from: 22.03.2023 PDF print date: 22.03.2023 Glanzwachs

# Use working methods according to operating instructions. 7.1.2 Notes on general hygiene measures at the workplace

General hygiene measures for the handling of chemicals are applicable.

Wash hands before breaks and at end of work.

Keep away from food, drink and animal feedingstuffs.

Remove contaminated clothing and protective equipment before entering areas in which food is consumed.

#### 7.2 Conditions for safe storage, including any incompatibilities

Keep out of access to unauthorised individuals. Store product closed and only in original packing. Not to be stored in gangways or stair wells.

Protect from direct sunlight and warming. Protect from frost.

#### 7.3 Specific end use(s)

œ

No information available at present.

Observe the instructions for good working practice and the recommendations for risk assessment.

Consult hazardous substance information systems, e.g. from the professional associations, the chemical industry or different industries, depending on the application (building materials, wood, chemistry, laboratory, leather, metal).

#### **SECTION 8: Exposure controls/personal protection**

#### 8.1 Control parameters

| Consumer            | Human - oral                            | Long term, systemic effects    | DNEL       | 1,25  | mg/kg bw/d |      |
| Workers / employees | Human - inhalation                      | Long term, systemic effects    | DNEL       | 8,72  | mg/m3      |      |
| Workers / employees | Human - dermal                          | Long term, systemic effects    | DNEL       | 112,5 | mg/kg bw/d |      |

WEL-TWA = Workplace Exposure Limit - Long-term exposure limit (8-hour TWA (= time weighted average) reference period) EH40. AGW = "Arbeitsplatzgrenzwert" (workplace limit value, Germany).

(8) = Inhalable fraction (Directive 2017/164/EU, Directive 2004/37/CE). (9) = Respirable fraction (Directive 2017/164/EU, Directive 2004/37/CE). (11) = Inhalable fraction (Directive 2004/37/CE). (12) = Inhalable fraction. Respirable fraction in those Member States that implement, on the date of the entry into force of this Directive, a biomonitoring system with a biological limit value not exceeding 0,002 mg Cd/g creatinine in urine (Directive 2004/37/CE). | WEL-STEL = Workplace Exposure Limit - Short-term exposure limit (15-minute reference period).

(8) = Inhalable fraction (2017/164/EU, 2017/2398/EU). (9) = Respirable fraction (2017/164/EU), 2017/2398/EU). (10) = Short-term exposure limit value in relation to a reference period of 1 minute (2017/164/EU). | BMGV = Biological monitoring guidance value EH40. BGW = "Biologischer Grenzwert" (biological limit value, Germany) | Other information: Sen = Capable of causing occupational asthma. Sk = Can be absorbed through skin. Carc = Capable of causing cancer and/or heritable genetic damage.

\*\* = The exposure limit for this substance is repealed through the TRGS 900 (Germany) of January 2006 with the goal of revision.

(13) = The substance can cause sensitisation of the skin and of the respiratory tract (Directive 2004/37/CE), (14) = The substance can cause sensitisation of the skin (Directive 2004/37/CE).

## 8.2 Exposure controls

#### 8.2.1 Appropriate engineering controls

Suitable assessment methods for reviewing the effectiveness of protection measures adopted include metrological and non-metrological investigative techniques.

These are specified by e.g. EN 14042.

EN 14042 "Workplace atmospheres. Guide for the application and use of procedures for the assessment of exposure to chemical and biological agents".

Page 7 of 16 Safety data sheet according to Regulation (EC) No 1907/2006, Annex II Revision date / version: 22.03.2023 / 0003 Replacing version dated / version: 01.12.2022 / 0002 Valid from: 22.03.2023 PDF print date: 22.03.2023 Glanzwachs

## 8.2.2 Individual protection measures, such as personal protective equipment

General hygiene measures for the handling of chemicals are applicable.

Wash hands before breaks and at end of work.

Keep away from food, drink and animal feedingstuffs.

Remove contaminated clothing and protective equipment before entering areas in which food is consumed.

Eye/face protection: Tight fitting protective goggles with side protection (EN 166).

Skin protection - Hand protection: Chemical resistant protective gloves (EN ISO 374). Recommended Protective gloves made of butyl (EN ISO 374). Minimum layer thickness in mm: >= 0,5 Permeation time (penetration time) in minutes: >= 480 Protective hand cream recommended.

The breakthrough times determined in accordance with EN 16523-1 were not obtained under practical conditions. The recommended maximum wearing time is 50% of breakthrough time.

Skin protection - Other: Protective working garments (e.g. safety shoes EN ISO 20345, long-sleeved protective working garments).

Respiratory protection: If OES or MEL is exceeded. Filter A P2 (EN 14387), code colour brown, white Observe wearing time limitations for respiratory protection equipment.

Thermal hazards: Not applicable

ദ്ര

Additional information on hand protection - No tests have been performed.

In the case of mixtures, the selection has been made according to the knowledge available and the information about the contents. Selection of materials derived from glove manufacturer's indications.

Final selection of glove material must be made taking the breakthrough times, permeation rates and degradation into account.

Selection of a suitable glove depends not only on the material but also on other quality characteristics and varies from manufacturer to manufacturer.

In the case of mixtures, the resistance of glove materials cannot be predicted and must therefore be tested before use. The exact breakthrough time of the glove material can be requested from the protective glove manufacturer and must be observed.

#### 8.2.3 Environmental exposure controls

No information available at present.

## **SECTION 9: Physical and chemical properties**

## 9.1 Information on basic physical and chemical properties

| Physical state:   | Liquid   |
|---|--|
| Colour:   | Orange   |
| Odour:  | Characteristic                                       |
| Melting point/freezing point:                             | There is no information available on this parameter. |
| Boiling point or initial boiling point and boiling range: | ~100 °C  |
| Flammability:   | There is no information available on this parameter. |
| Lower explosion limit:                                    | 1,1 Vol-%  |
| Upper explosion limit:                                    | 10,6 Vol-%   |
| Flash point:  | There is no information available on this parameter. |
| Auto-ignition temperature:                                | There is no information available on this parameter. |
| Decomposition temperature:                                | There is no information available on this parameter. |
| pH:   | 3,8 (100 %, 20°C, DIN 19268)                         |
| Kinematic viscosity:                                      | There is no information available on this parameter. |
| Solubility:   | Mixable  |
| Partition coefficient n-octanol/water (log value):        | Does not apply to mixtures.                          |

Page 8 of 16 Safety data sheet according to Regulation (EC) No 1907/2006, Annex II Revision date / version: 22.03.2023 / 0003 Replacing version dated / version: 01.12.2022 / 0002 Valid from: 22.03.2023 PDF print date: 22.03.2023 Glanzwachs

Vapour pressure: Density and/or relative density: Relative vapour density: Particle characteristics:

## 9.2 Other information

Explosives:

œ

There is no information available on this parameter. 0,995 g/cm3 (20°C, DIN 51757) There is no information available on this parameter. Does not apply to liquids.

Product is not explosive. When using: development of explosive vapour/air mixture possible.

#### **SECTION 10: Stability and reactivity**

#### **10.1 Reactivity**

The product has not been tested. **10.2 Chemical stability** Stable with proper storage and handling. **10.3 Possibility of hazardous reactions** No dangerous reactions are known. **10.4 Conditions to avoid** None known

**10.5 Incompatible materials** Avoid contact with strong oxidizing agents.

## 10.6 Hazardous decomposition products

No decomposition when used as directed.

## **SECTION 11: Toxicological information**

#### 11.1. Information on hazard classes as defined in Regulation (EC) No 1272/2008

Possibly more information on health effects, see Section 2.1 (classification).

| Toxicity / effect  | Endpoint | Value | Unit    | Organism | Test method | Notes                        |
|--|----------|-------|---------|----------|-------------|------------------------------|
| Acute toxicity, by oral route:                                   | ATE      | >2000 | mg/kg   | -        |             | calculated value             |
| Acute toxicity, by dermal route:                                 |          |       |         |          |             | n.d.a.                       |
| Acute toxicity, by inhalation:                                   | ATE      | >20   | mg/l/4h |          |             | calculated value,<br>Vapours |
| Skin corrosion/irritation:                                       |          |       |         |          |             | n.d.a.                       |
| Serious eye damage/irritation:                                   |          |       |         |          |             | n.d.a.                       |
| Respiratory or skin<br>sensitisation:                            |          |       |         |          |             | n.d.a.                       |
| Germ cell mutagenicity:  |          |       |         |          |             | n.d.a.                       |
| Carcinogenicity:   |          |       |         |          |             | n.d.a.                       |
| Reproductive toxicity:   |          |       |         |          |             | n.d.a.                       |
| Specific target organ toxicity -<br>single exposure (STOT-SE):   |          |       |         |          |             | n.d.a.                       |
| Specific target organ toxicity -<br>repeated exposure (STOT-RE): |          |       |         |          |             | n.d.a.                       |
| Aspiration hazard:   |          |       |         |          |             | n.d.a.                       |
| Symptoms:  |          |       |         |          |             | n.d.a.                       |

## SECTION 13: Disposal considerations

#### 13.1 Waste treatment methods For the substance / mixture / residual amounts

EC disposal code no.:

œ

The waste codes are recommendations based on the scheduled use of this product.

Owing to the user's specific conditions for use and disposal, other waste codes may be

allocated under certain circumstances. (2014/955/EU)

07 06 04 other organic solvents, washing liquids and mother liquors

Recommendation:

Sewage disposal shall be discouraged.

Pay attention to local and national official regulations.

E.g. suitable incineration plant.

E.g. dispose at suitable refuse site.

## For contaminated packing material

Pay attention to local and national official regulations. Empty container completely. Uncontaminated packaging can be recycled. Dispose of packaging that cannot be cleaned in the same manner as the substance. Recommended cleaner: Water

## **SECTION 14: Transport information**

| General statements                  |                |
|-------------------------------------|----------------|
| Transport by road/by rail (ADR/RID) |                |
| 14.1. UN number or ID number:       | Not applicable |
| 14.2. UN proper shipping name:      |                |
| Not applicable                      |                |
| 14.3. Transport hazard class(es):   | Not applicable |
| 14.4. Packing group:                | Not applicable |
| 14.5. Environmental hazards:        | Not applicable |
| Tunnel restriction code:            | Not applicable |
| Classification code:                | Not applicable |
| LQ:                                 | Not applicable |
| Transport category:                 | Not applicable |
| Transport by sea (IMDG-code)        |                |
| 14.1. UN number or ID number:       | Not applicable |
| 14.2. UN proper shipping name:      |                |
| Not applicable                      |                |
| 14.3. Transport hazard class(es):   | Not applicable |
| 14.4. Packing group:                | Not applicable |
|                                     |                |

Page 14 of 16 Safety data sheet according to Regulation (EC) No 1907/2006, Annex II Revision date / version: 22.03.2023 / 0003 Replacing version dated / version: 01.12.2022 / 0002 Valid from: 22.03.2023 PDF print date: 22.03.2023 Glanzwachs

14.5. Environmental hazards: Marine Pollutant: EmS:

ദ്ര

#### Transport by air (IATA)

14.1. UN number or ID number: 14.2. UN proper shipping name: Not applicable 14.3. Transport hazard class(es): 14.4. Packing group: 14.5. Environmental hazards:

#### 14.6. Special precautions for user

Unless specified otherwise, general measures for safe transport must be followed.

14.7. Maritime transport in bulk according to IMO instruments

Non-dangerous material according to Transport Regulations.

**SECTION 15: Regulatory information** 

## 15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

Observe restrictions: Comply with national regulations/laws governing maternity protection (national implementation of the Directive 92/85/EEC)! Regulation (EC) No 1907/2006, Annex XVII 2-Butoxyethanol Comply with trade association/occupational health regulations.

Directive 2010/75/EU (VOC): **REGULATION (EC) No 648/2004** 5 % or over but less than 15 %

cationic surfactants less than 5 % non-ionic surfactants

FORMIC ACID BENZISOTHIAZOLINONE METHYLISOTHIAZOLINONE

National requirements/regulations on safety and health protection must be applied when using work equipment.

#### 15.2 Chemical safety assessment

A chemical safety assessment is not provided for mixtures.

**SECTION 16: Other information** 

2, 7, 11, 15, 16

Revised sections: These details refer to the product as it is delivered. Employee instruction/training in handling hazardous materials is required.

#### Classification and processes used to derive the classification of the mixture in accordance with the ordinance (EG) 1272/2008 (CLP):

| Classification in accordance with regulation<br>(EC) No. 1272/2008 (CLP) | Evaluation method used                             |
|--|--|
| Skin Irrit. 2, H315  | Classification according to calculation procedure. |
| Eye Dam. 1, H318   | Classification according to calculation procedure. |
| Aquatic Chronic 3, H412  | Classification according to calculation procedure. |

The following phrases represent the posted Hazard Class and Risk Category Code (GHS/CLP) of the product and the constituents (specified in Section 2 and 3).
